Eberglo is a liquid mix of probiotics, prebiotics, natural plant enzymes, vitamins and premium chelated minerals. This combination provides a source of critical nutrients that have become depleted in soils, crops and feeds. A healthy digestive system creates a healthy horse. This results in less feed intake.

*It's highly economical, using 6-10 ml once a day per horse, costs only \$8.00-\$10.00 per month, per horse!*
